

# Coronavirus Epidemic

## Consequences For Clarence River U3A

The conditions imposed by State and Federal Governments on indoor and outdoor gatherings has effectively made it impossible for any of the Classes and Groups conducted by Clarence River U3A to continue for the foreseeable future.

Prior to Government edict, the Committee of Clarence River U3A considered it prudent to suspend all Class and Group activities given that Clarence River U3A membership consists of people who are at highest risk of serious illness or even death from exposure to coronavirus.

Prior to suspension, there were some 40 Classes and Groups operating. It is hoped that all of those Classes and Groups will be restored eventually.

A new Class and Group Schedule will be published on our website and in other ways, as circumstances allow their reopening.

Please check back regularly to read of the latest developments.
